

NOVEDADES DEL CENTRO DE DOCUMENTACIÓN

CALENDARIO 2008

Como es costumbre Fedepalma anualmente edita el calendario destacando algunos temas de la agroindustria de la palma de aceite. Para el año 2008 se quieren destacar los beneficios del cultivo de la palma de aceite para nuestra alimentación, salud, trabajo, medio ambiente, y desarrollo económico y social.

Lea en GLOBAL OILS & FATS BUSINESS MAGAZINE • VOL.4 ISSUE 3, 2007:

The Carbon Balance: The new centre of attention

Palm oil is increasingly being used for biofuel applications in Europe, as replacement of fossil fuels in (renewable) electricity generation and as feedstock for the production of biodiesel. Both applications are incentivized by EU memberstates through subsidies and/or tax exemptions, as they contribute to reaching targets for renewable power production and petrol use. This policy has led to a sharp interest in all forms of biomass that can be used for energy purposes, including vegetable oils.

The Forest Conversion News No 16:

WWF and Honduran palm oil producers cooperate to protect biggest reef in the Americas In June, WWF and palm oil producer groups in Honduras signed a memorandum of understanding which outlines ways to better protect the Mesoamerican Reef, the biggest coral reef system in the Americas and the second largest in the world.

The 5th Roundtable Meeting on Sustainable Palm Oil The 5th Roundtable Meeting on Sustainable Palm Oil (RT5) will take place on 20-22 November 2007 in Kuala Lumpur (Malaysia). The meeting will bring together RSPO members, stakeholders and partners to review and discuss progress in meeting the RSPO objectives.

De la revista Biodiesel Magazine del número de Diciembre de 2007

Biodiesel: A Global Perspective In 2007, Europe and the United States were the leading biodiesel producers. Heading into 2008, Biodiesel Magazine takes a look at which countries are struggling and which show potential.
